EXPERIENCE

State University of New York at Geneseo

Geneseo, NY

Tutor (Data Analytics)

September 2022 – May 2023

- Assisted over 100 students in beginner and intermediate level classes in weekly sessions for understanding and producing statistical measures such as bar plots, histograms, and regression models, as well as preparing and cleaning data.
- Increased students' technical skills including developing better syntax in the programming languages R and Python

Student Managed Investment fund (Financial analyst)

September 2022 – January 2023

- Managing more than \$500,000 worth of assets including blue chip companies, index funds, and commodities
- Using excel to create regressions on individual stocks to determine if we should invest or divest on our holdings depending on measured variables

Wegmans Food Markets Inc.

Rochester, NY

Produce Inventory Management & Customer Service Representative

August 2019 – Present

- Exceeded IPM goals by 26% in 2021 while maintaining proper bagging methods to ensure food safety guidelines
- Trained multiple employees on register and self-checkout machines.
- Coordinated inventory management through cycle counts using CAO

PROJECTS

Undergraduate Machine Learning Project | *Google Collab* | *Python – scikit-learn* |

- Performed correlation analysis to determine the most significant contributors to happiness, highlighting the impact of economic stability and health
- Built predictive models using Linear Regression, Decision Trees, and Random Forests to forecast happiness scores.
- Utilized Python libraries (Pandas, NumPy, Seaborn, Matplotlib, Plotly) and applied techniques such as feature scaling and one-hot encoding using Scikit-learn.

Undergraduate Econometrics Research | *Gretl* | *Python* |

- Conducted econometric research analyzing the factors influencing national well-being using data from the World Happiness Report (WHR).
- Applied econometric techniques, including OLS regression, multicollinearity diagnostics (Variance Inflation Factors), and heteroskedasticity tests (Breusch-Pagan)
- Analyzed and validated the relationship between economic and social factors and national happiness levels.

Personal Website | jackgramlich.github.io |

- Developed a static HTML + CSS website with Visual Studio Code using Quattro, Github, and Python

LEADERSHIP

Alpha Chi Rho Fraternity, Phi Zeta Chi Chapter

Geneseo, NY

Vice-President

November 2022 – May 2023

- Oversaw creation of the Chapter budget valued at \$15,850, oversaw Chapter accounts, and approved all transactions
- Coordinated the annual “Deep Freeze” fundraising event for the American Cancer Society, raising \$2,778 in one week

Treasurer

May 2022 – November 2022

- Devised and managed an annual budget of \$15,600, ensuring all fraternity expenses were planned and accounted for.
- Coordinated with national fraternity leadership to ensure compliance with financial contribution requirements and optimize the use of national resources.
